# 22x238 mm strikers - round end, with curved lip, for flush doors 38-45 mm

### Description

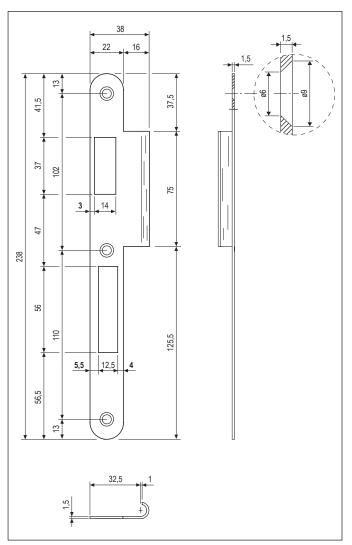

Striker with round ends, 22 mm wide, 238 mm long. The lip is bent where the spring latch strikers for easier and smoother closing of the door. Suitable for both right and left-handed application (see code chart).

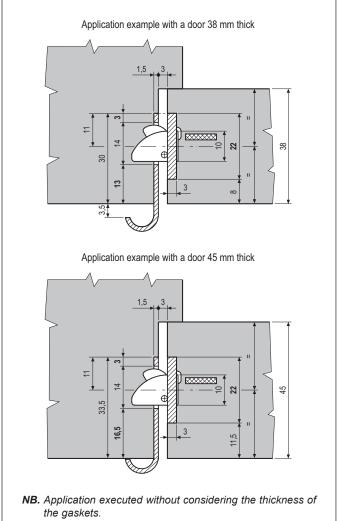

#### **Application**

Used in combination with SL and DQ Opera locks, on interior or main rebated doors with 38 mm timber frame.

#### Mounting

Mill the frame according to the dimensions shown in the diagram. The inner edges of the striker and the forend of the lock have to be aligned. Use Ø4,5 mm screws of a suitable length.
