

# Wave, handle kit for sliding doors - bathroom hub, 38-50 mm door thick.

**Description**

Patented fixed flush handle in bathroom version, easy to be installed and used.

**Fastening**

Make reference to the assembly installation and application fields.

**Use**

To be coupled with Scivola Tre locks in all the applications where a traditional rosette is not necessary, but above all, to have the perfect match between sliding door and rebated door (even on doors that have been already drilled for the Venti5 kit).
